Dhaka, Bangladesh | Open to relocation to Tokyo, Japan

Product-minded **Android Tech Lead / Senior Android Engineer** with **10+ years of experience** building, scaling, and owning consumer-facing mobile applications, with deep native Android expertise and hands-on experience across **iOS, Flutter, and Kotlin Multiplatform**. Strong expertise in **Kotlin, Java, Jetpack Compose, Coroutines, Flow, MVVM/MVI, Clean Architecture, modular architecture, CI/CD, testing, debugging, release management, and performance optimization**. Delivered **20+ production mobile applications** serving **1M+ users**. Skilled in integrating **AI-powered mobile features**, including **AI agents, MCP servers, OpenAI API, speech-to-text, text-to-speech, real-time speech translation, chatbot workflows, and intelligent automation**. Experienced in owning features from architecture and implementation through testing, release, monitoring, and production support while collaborating closely with product, design, backend, and QA teams.

Career Highlights:

- **10+ years of mobile engineering experience**, with deep Android expertise using **Kotlin, Jetpack Compose, Coroutines, Flow, MVVM/MVI, and Clean Architecture**.
- Shipped and maintained **20+ production mobile apps** across e-commerce, food delivery, ride-sharing, language services, fleet management, and real-time communication.
- Built mobile products serving **1M+ users**, with hands-on responsibility for **stability, performance, release quality, monitoring, and production support**.
- Led mobile engineering teams of up to **7 developers**, providing technical direction, architecture reviews, code reviews, mentoring, and delivery planning.
- Modernized legacy Android applications by migrating **Java/XML** flows toward **Kotlin and Jetpack Compose**.
- Led development across **Android and iOS**, with experience in mobile CI/CD, analytics, user feedback, product metrics, activation, retention, and engagement.

Professional Experience

Jatri Services Ltd, Dhaka, Bangladesh
Lead Mobile Developer — FMS, Saudi Arabia(Remote)(*11/2025 – Present)*
Working remotely with FMS — Fleet Management Service, a Saudi Arabia-based fleet management platform, through Jatri Services Limited.

- Lead development and maintenance of **Android and iOS(Flutter) applications** for a Saudi Arabia-based fleet management platform.
- Own mobile delivery across **orders, trips, vehicles, reservations, pricing, approvals, invoicing, and operational status workflows**.
- Work with product and backend stakeholders on **technical decisions, API integration, validation, edge cases, and production reliability**.
- Improve application quality through **debugging, production issue resolution, workflow validation, and release support**.

GLOBO Language Solutions LLC, Pennsylvania, USA
Mobile Tech Lead (*03/2022 – 08/2025)*
GLOBO provides on-demand audio, video, and text translation in 430+ languages with real-time access to qualified linguists.

- Owned Android and iOS feature delivery from **architecture and technical design through implementation, testing, release, monitoring, and production support**.
- Led a mobile team of **3 developers**, setting engineering standards through code reviews, architecture discussions, mentoring, and delivery planning.
- Migrated key Android flows from **Java/XML to Kotlin and Jetpack Compose**, improving maintainability and development speed.
- Built scalable Android features using **Kotlin, Coroutines, Flow, MVVM/MVI, Clean Architecture, dependency injection, and Jetpack libraries**.
- Monitored and improved production stability using **Firebase Crashlytics, New Relic, logs, crash analysis, debugging, and performance investigation**.
- Built real-time communication features using **Twilio, Amazon Chime, Dyte, WebSocket, audio/video calling, and push notifications**.
- Integrated **AI-powered speech translation, speech-to-text, and text-to-speech** into real-time mobile communication workflows.
- Collaborated with product, backend, QA, and design teams and supported mobile **CI/CD, release validation, and production delivery**.

Evaly.com.bd Ltd., Dhaka, Bangladesh
Lead Software Engineer (*07/2019 – 02/2022)*
E-valy is a Bangladeshi e-commerce platform offering products and fast home delivery, including e-Food service from 70+ restaurants in Dhaka.

- Led a team of **7 mobile developers** across Android and iOS applications.
- Built and maintained consumer applications for **e-commerce, classifieds, and food delivery**.
- Developed Android flows for **product discovery, cart, checkout, payments, wallet, order placement, delivery tracking, and customer journeys**.
- Helped scale mobile applications supporting **millions of product views and thousands of daily orders**.
- Improved reliability through **crash monitoring, debugging, release validation, API-flow improvements, and production support**.
- Collaborated with product, design, backend, QA, and operations teams to deliver high-volume consumer experiences.

Carbangla Ltd, Dhaka, Bangladesh
Senior Software Engineer / Software Engineer (*12/2017 – 06/2019)*
CarBangla is a ride-sharing service offers on-demand city and intercity rides

- Built and maintained **Android and iOS applications** for ride booking, real-time tracking, fare estimation, trip management, and in-app communication.
- Developed location-based functionality using **GPS, maps, routing, background services, and real-time updates**.
- Built and improved **booking, driver tracking, trip status, payment, and wallet** experiences.
- Handled API integrations, debugging, edge cases, performance improvements, and production releases.

Inovio, Dhaka, Bangladesh
Associate Software Engineer (*01/2016 – 11/2017)*
Inovio is a client-focused software development company that specializes in building custom web, mobile, and enterprise solutions.

- Developed and maintained **Android and iOS applications** for client projects.

- Built native Android features using **Java, Kotlin, Android SDK, XML, REST APIs, local storage, and push notifications**.
- Integrated APIs, handled data persistence, fixed bugs, and improved application usability and reliability.

Technical Skills

Android Development: Kotlin, Java, Android SDK, Jetpack Compose, Coroutines, Flow, XML, ViewModel, LiveData, Navigation, Room, DataStore, Paging, WorkManager, Push Notifications

Android Architecture: Clean Architecture, MVVM, MVI, Modular App Design, Multi-module Architecture, Repository Pattern, Use Case Pattern, Offline-First Architecture, Scalable Codebase Design

Product & Analytics: Firebase Analytics, User Feedback, Product Metrics, Funnel Analysis, Activation, Retention, Engagement, UX Friction Analysis

AI & Mobile Intelligence: AI-Assisted Development, OpenAI API Integration, AI Agents, MCP Servers, Tool Calling, RAG, Prompt Engineering, LLM Automation, Chatbot Development, AI Assistant Integration

AI-Powered Mobile Features: AI-Powered Speech Translation, Speech-to-Text, Text-to-Speech, AI Chat Interfaces, TensorFlow Lite, Intelligent Automation, Mobile AI Prototyping

Performance & Debugging: Android Profiler, Firebase Crashlytics, ANR Investigation, Memory Leak Investigation, Performance Optimization, New Relic, Sentry

Testing & Quality: JUnit, MockK, Turbine, Espresso, Compose UI Testing, Unit Testing, UI Testing, Integration Testing, Test Automation, Code Review

Cross-Platform: Kotlin Multiplatform, Flutter, Dart, Provider, Riverpod, Redux, Recoil, MobX

iOS Development: Swift, SwiftUI, UIKit, Swift Concurrency, async/await, Combine, Objective-C, Storyboard, Actors, CoreBluetooth, Protocol-Oriented Programming, The Composable Architecture

Real-Time Communication: WebSocket, Twilio, Amazon Chime, Dyte, Audio/Video Calling, Real-Time Media Streaming, In-App Communication

Tools & CI/CD: Android Studio, Xcode, Git, GitHub, Gradle, Firebase, CircleCI, Fastlane, TestFlight, Google Play Console

Leadership & Collaboration: Technical Leadership, Mobile Ownership, Mentoring, Architecture Review, Code Review, Sprint Planning, Cross-Functional Collaboration, Remote Collaboration, Release Ownership

Education

MSc in Computer Science and Engineering, Jahangirnagar University, Dhaka, Bangladesh *(2017-2019)*
BSc in Software Engineering, Daffodil International University, Dhaka, Bangladesh *(2013-2016)*
